Becoming little frocks of wool flannel. They are made with long sleeves,
pleats and clever touches of trimmings. Fawn, Rosewood, Green, Blue. Sizes
6 to 14 years.

Lacombe Canoeists Win Championship

At the Second Annual Alberta Championship Canoe Race, the Lacombe Canoe Team were the big winners, but it was by a very small margin in each race, the two teams from Edmonton put up a hard tussle but not being used to Lake racing lacked the finish that would have meant victory.

In the first championship race, men's singles, F. C. Omand, won first, with Copeman second. In this race, A. Sheridan, Lacombe, had the misfortune to tip his canoe over on the first dip of his paddle, and though winning the race, the Edmonton boys insisted on re-running, as they said, it was not fair to Sheridan if they claimed the race as a result of his accident. This was undoubtedly the finest "sporting gesture" ever seen at Gull Lake, and by it the Edmonton Team places itself high in the esteem of Gull Lake people. When the singles were re-run, Omand again came in first, but the Edmonton team insisted that he be disqualified as he cut Sheridan's bow just at the finish of the race, as quite a sea was running at the time—it was deemed accidental and the single went to Edmonton.

Claude Halpin and A. Sheridan romped in first in the men's championship doubles, but Omand and Roberts gave them a real race, and the finish was as thrilling as a "Horse Race".

In the mixed doubles, Miss K. Campbell and A. Sheridan won from Miss Moors and Omand, Edmonton, by a boat length, with Miss Barton and Copeman close third.

Misses K. and G. Halpin won the Mixed Four's Championship, from the Edmonton team consisting of Misses Moors and Copeman, Barton and Omand; this race was by far the most exciting of the Regatta, both canoes running neck and neck from the start; the Lacombe Teams knowledge of lake racing enabled them to come in, half a length ahead of the visiting canoeists.

Claude Halpin won the Crab Race, in which the canoeists paddle in the bow of the boat. It was lots of fun for the spectators, as the night wind whirled the canoes around, making it next to impossible to make any headway, but "Claude" being an old hand at this kind of race, got going about half way down the house stretch and though he made a couple of "blunders" easily came in five boat lengths ahead of Copeman.

The attendance at this race meet was not as good as could have been expected, and we hope next season to have these races earlier in the year. But taking all into consideration, the meet was successful, if for no other reason than that it showed the people of the lake just what real sportsmen are. It is doubtful if Gull Lake has ever entertained an aggregation of better sports than the Edmonton team proved themselves to be, and what's more the Edmonton boys say the same thing about the local canoeists, and were loud in their praise of Gull Lake, to which Monday was the first visit for most of them, and they say it will not be their last.

Jack Porter, Calgary Canoeist, was unfortunately detained in the city and was not at the meet, but it is deemed as well that he was not there as it gave Edmonton one Championship at least, and they deserved a whole lot more if we consider "Sportsmanship".

With the "Voyageurs" from Edmonton were: Omand, Copeman, Bank, Powers, Tipton, Roberts and Misses Copeman, Moors and Omand.

The Gull Lake Team consisted of Misses Kathleen and Jean Campbell, A. Sheridan and Claude Halpin.

Making Whoopee Brings Trouble

The aftermath of a modern Sunday picnic, at which whoopee apparently was the piece de resistance, was the appearance before the magistrate at Red Deer yesterday of F. Doherty, Lyle Perkins and a lady friend, who were charged with being illegally in possession of liquor. The three were found guilty and each was fined \$20 and costs and placed on the probation list.

The picnic was held near the Canyon, and when neighbors saw the party holding whoopee in a house at present unoccupied, the police at Red Deer were notified, and Sgt. Holmes came on the scene and made the arrests. Further charges of a serious nature are pending, and will come up for trial next week. The suspects are out on bail at present.

Football Dance Big Success

The Lacombe Football Club wound up the season on Labor Day with two pleasing events. In the morning a friendly game was played between the High School boys, with Mr. Cameron blowing the whistle. The results did not dishearten the young colts. They doubtless learned considerable about off-side, combination and defensive work. In the evening a successful dance took place in the Comet Theatre, where the Ponoka Agricultural Club was presented to Capt. J. Shaw along with individual medals to the victorious eleven. The team wish to give hearty thanks to the stockholders and ladies who kindly donated the refreshments. There are three other cups and a League shield to be won each year by the five teams of Central Alberta Football League. Next year a Lacombe Store

The Annual Sheep Sale

The annual sale of Pure-Bred Rams, Faced-Bred and grade ewes and feeder lambs, held under the auspices of the Central Alberta Wool Growers' Association, will be held at the Exhibition Grounds, Lacombe, on Wednesday, October 8. Already a great deal of interest is evident in this event, and the Secretary, Mr. D. F. Chisholm is receiving queries from all parts of the province and B.C. Each year more and more farmers are going into sheep raising, and it will not be long before most farms will have a flock of sheep, as it is being realized that sheep raising is a very profitable business in a mixed farming district. Entries close for this sale on Sept. 15th, and Mr. Chisholm urges patrons to get their entries in at once, so that grading can be commenced in good time.

Start Work on West Road

Grading operations are in full swing on the Gull Lake Road now, there being several grading outfits at work. It is gratifying to see this long needed highway under construction, and it will undoubtedly prove a great convenience to people living west of here, as well as holidayers at the lake. This road has been the object of much swearing during the past season, but when it was known definitely that the gravel highway would go through this fall, the bumps and chuck-holes did not seem so bad. A word of appreciation is certainly due to Mr. A. M. Campbell, whose untiring efforts aided greatly in getting the road built through Gull Lake. Mr. M. Madden and the council of Crown No. 399 and the Council of Lorne No. 400 also deserve a word of appreciation in this behalf.

Clive News

The infant daughter of Mr. and Mrs. Roy Lawson, little Norah Mae was called away by death after a very brief illness on Friday, Sept. 29th at Tees, having suffered from inflammation of the bowels. The funeral service was conducted in Tees United Church, Sunday, Aug. 31, at 2 p.m., Rev. I. N. Hughes officiating. Deepest sympathy is rendered to the sorrowing family.

The Georgian Singers, Mr. J. Edmondson and Miss Phyllis Hearn, are giving a Concert in Clive United Church on Friday, Sept. 5th. Both of these entertainers are outstanding artists and will guarantee a first class concert.

The Tees School Board are erecting a new two-roomed school modernized with electric lights, lavatories and an indoor playground in the basement. This is a real community work.

United Church on Sunday, September 7th. Everyone is cordially invited to attend this service, commencing at 7:30 p.m.

Iowala News

The regular meeting of the Needlecraft was held on Thursday, Aug. 23, at the home of Mrs. Booth. The ladies decided to have their Annual Chicken Supper and Bazaar on Oct. 17.

Mrs. Paul Brevik has been visiting at Mrs. Smith's.

Mrs. and Mrs. Zelle entertained Mrs. Friswell and family to dinner on Sunday.

Mrs. James Kinley is back from B.C. and he is visiting in the district.

Most of the farmers will finish cutting grain this week and the threshing rigs will soon be humming in the district.

Mr. James Harrington resumed his position as teacher of the Progressive School on Tuesday, Sept. 2.

Meadowbrook News

We are sorry to hear that Mr. Isaiah Riley had the misfortune of having his leg cut quite badly by barbed wire, last Saturday while rounding up his cattle. Mr. Riley will be confined to bed for at least 3 weeks.

Mr. Jas. Kinley from B.C., is back visiting again this year. Good health permits him to be out stocking grain.

Mr. and Mrs. T. Alkman, of Canmore were Sunday visitors at Mrs. Frank Rileys.

The September meeting of the Ladies' Aid will be held at the home of Mrs. Robt. Kinley. Arrangements will be made for the annual chicken supper, so every member is asked to please be present.

Mr. and Mrs. Wm. Wiles from Rosedale were week end visitors at Mr. Wileys.

Miss Florence Malby has left to attend the Alberta College at Edmonton.

The Standard has all along contended that there are two solutions to the wheat problem—no grow less wheat, to grow more of something else. Aid is asked on the ground that an emergency exists; but the plain, unvarnished truth is that the emergency should never have occurred, and, if the Wheat Pool has been ordinary common sense and sold while the selling was good, instead of trying to corner wheat—a feat at which many smart men, than the Four Macs have failed—it would not have landed in this predicament.

The lesson should be firmly obvious that the future of the West is mixed farming, and not a series of gambles in wheat. Mixed farming, a protective tariff to cover agriculture and manufactures alike, and a home market for urban consumers that will rally round the tall chimneys, will set the West permanently on its feet, and it will not be pestering Ottawa so often to pay for its mistakes.

Indeed, there is no more reason why Ottawa should pay for the West's mistakes than it should Quebec's mistakes, or Ontario's, or the Maritimes', all of which, we observe, take the least with the fat, and do not pull the poor mouth when there is a bad crop or a glut in the market. The time has come, we submit, when the West should rely on itself, stand up to the white man's burden cease to cry over spilt milk, and one way and another, manfully. The West has been a petted and pampered child for quite a long while now. It has arrived at years of discretion—though the operations of the Wheat Pool point in another direction—and it should be able to blow its own horn without borrowing a handkerchief from Ottawa.

We hazard the guess that when this post-war world has shaken down and all the water has been drained off, wheat will still stand at perhaps a dollar fifteen a bushel. At all events, the West should not bark on a bigger figure than that, and should adjust itself accordingly. Other prices will conform to the wheat level, and the West will be as well off as ever it was—provided, of course, that it takes the lessons of the past to heart, and does not trust all its eggs to one basket.

AN ATTRACTIVE WINDOW

We have been constantly put before our readers the up-to-date methods and progressiveness of our merchants. This week we would draw your attention to the windows of Sweet's Pharmacy. The display of soap supplies in one window and Waterman Pens in the other; the latter especially, drawing comments from the public. A neat, well balanced display, not overcrowded and very attractive. "311" has shown his artistic genius to the full this week and we wish to compliment him.

BAPTIST CHURCH

Sunday School and Bible classes at 11 a.m. You will find here a class for all ages. Come to Sunday School. Public Worship at 7:30 p.m. The Sermon topic will be "God's Desire for His People".

The Ladies' supper will be observed on the 14th of fellowship will be extended to new members. Prayer and praise meeting—you are heartily invited to come and worship with us.

LIMBER MUSCLES NOW ASSURED

With the summer sports well under way—bawling, rolling, swimming, golf, tennis, etc.—lovers of outdoor games will find that a good break rub-down with Absorbine, Jr., will prevent the stiffness which usually follows strenuous or unusual exercise.

Absorbine, Jr., will also keep you in trim throughout the season. It cures cramps, breaks up congestions, soothes and refreshes sore, lacerated muscles—the athlete's favorite rub-down after any game. And as a first aid, it takes the pain out of cuts, wounds, bruises and sprains.

Absorbine, Jr., is both antiseptic and liniment. Not only does it relieve pain and stiffness, but if the skin has been broken, it reduces to a minimum any danger of infection by promptly destroying the disease germs. It is not greasy and does not stain—\$1.25 per bottle—at your druggist's.

LOST—BLACK CLUB BAG

Containing leather collar bag, shaving outfit, ivory hair brush, etc., somewhere east of Lacombe or south of Stettler. Finder please return to Elmer E. Roper, 10010, 102 street, Edmonton.

Rimby's New Hospital

Rimby has reason to be proud of her hospital. On invitation of the Matron, Miss McDonald, a reporter of the Western Globe paid a visit to Rimby's new hospital on Sunday last, and was greatly surprised to find a real city hospital in a place the size of Rimby.

The hospital was built this year, and with equipment to the value of \$30,000. It is a two-story building, with full size basement, and when fully equipped will have twenty-five beds. The construction is solid concrete, with stucco finish, and is absolutely fire proof. It is built on an acre of ground, and the landscape gardeners are already at work on the beautifying of the premises. When the plans are carried out this will be a beauty spot of the province, and a place worth going many miles to see.

At present only the first floor is devoted to patients, fourteen beds being in use, and the present capacity of the hospital is already becoming taxed. On the first floor is the operating and case rooms, and every late appliance for the convenience of the doctors and patients is already installed. The wards are very large and roomy; the beds are the very latest and best procurable. Every ward is so arranged that beds may be wheeled direct to the x-ray machine or other parts of the building without disturbing the patient in the least. The nursery is also on the first floor, and at the time of our visit five lusty young Rimbyites were having their first insight into Alberta life.

The building contains one of the modern water and lighting systems, and is heated by an automatic water system, which at all times keeps the temperature at the proper degree. The red light system of calling nurses is installed, and all the patient has to do to summon a nurse is press a button; the message is registered at the desk, and the light above the ward door guides the nurse to the patient's aide.

The three floors are all finished in hard-wood, and the entire place is scrupulously clean. We were almost tempted to become a patient before we got through our sight-seeing.

The first floor, or basement, contains the kitchen, dining rooms and water and lighting plants; also the laboratory, and store rooms. As the basement is only about three feet underground there is plenty of light from the ground windows, and in case of emergency, several wards can be located on this floor.

At present the entire third floor is occupied by the nurses and other employees of the institution, but it is the intention of the Sisters who operate the hospital to erect a nurses' home as soon as business warrants, and fit this floor up into wards. The hospital is equipped with the very latest x-ray apparatus and sterilizer. There is an up-to-date laundry with the latest electric machinery in the basement, in fact, there is everything that should be in a hospital. Again, allow us to say Rimby should be proud of her hospital.

Geo. Myles Laid to Rest.

Some indication of the esteem in which George Myles was held by all in Lacombe and vicinity was shown by the hundreds that attended his funeral service and by the many wreaths of flowers placed upon his casket and on his grave. It is doubtful if ever before have the menfolk shown such genuine sorrow at the demise of one of their "buddies," and his ready wit and general good nature will be missed on our streets and in the store where he had worked for the past eleven years.

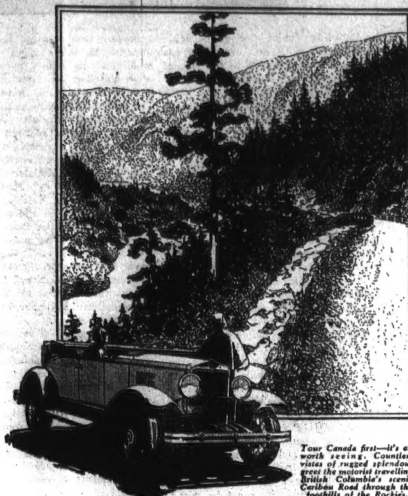

"Scotty" as he was known to his intimate friends and he had hundreds of them, was one ever ready to give a helping hand to those in distress or trouble, and it is remembered that a few years ago, he was untiring in his effort to alleviate the sufferings of those afflicted and his many kindnesses at that time and during his entire life in our midst will live long in the memory of the people. In every town, city or community there is always one man whose good deeds stand out above all others, one who is held in highest esteem by the folks in all walks of life and one whose place it is almost impossible to fill. "George" was just such a man, and is deeply mourned in our town.

In all our years of friendship with him, we have never heard him utter a mean word about anyone, and have never heard one uttered against him, which is something that can be said of few persons. If he had an enemy in the country he would have heard of it, and at his funeral it could be plainly seen that his most fitting epitaph should read, "Well done, thou good and faithful Servant," and "Not only this day is he remembered, but always."

The Lacombe Fire Department conveyed the body to the Church and Cemetery on their Fire Truck, which was draped with black, and piled high with flowers. And the Masonic Order turned out en-masse to give their "Brethren" the last rites of the order. Some hundred Masonic Brothers were in attendance at his funeral and at the Grave-

IT'S WISE TO CHOOSE A SIX

You can afford Six-Cylinder Luxury if you can afford any car!

Four Canada first-of-its-kind work saving. Countless visits of rugged splendour greet the motorist travelling British Columbia's scenic Canadian Road through the foothills of the Rockies.

In size, performance and appearance, the Chevrolet Six is superior to any other low-priced car on the road today. Because of this fact, many people believe that the Chevrolet is priced much higher than it really is.

Yet, with a base price of \$635 at the factory, Chevrolet is actually one of the easiest cars in the world to buy!

COSTS NO MORE TO OWN

And, while it is a six-cylinder, 50-horsepower, heavier car—the Chevrolet Six costs no more for gas. . . costs no more for oil. . . costs no more for upkeep!

So easy is Chevrolet to buy—and so economical to operate—that it alone can give you the full dividends of motoring pride and satisfaction which your money ought to earn when invested in the low-priced field.

GO FOR A CHEVROLET RIDE

Call us up today, and let us send a Chevrolet Six for you to drive, without obligation. Find out how much more enjoyable six-cylinder motoring is. Ask about the General Motors Owner Service Policy, the most complete in the industry—and about the G.M.A.C. General Motors' own deferred payment plan.

ROADSTER or PHAETON

\$635

Prices at factory, Oshawa. Taxes, transport and spare tire extra. A complete line of Commercial Cars and Trucks from \$425 up.

MORTGAGE

THERE were long, lean years for you—and Mother—before success began to come.

Her hair is grey now—and you are no longer young.

But you dream of leaving a mortgage-free homestead for Bobby, without the hardships you went through.

Yet you realize the Risk—the sleepless mortgage that still grips your broad acres.

It's THAT that wakes you in the night—the haunting fear that even after your long fight (should death come) your family might not be able to lift that mortgage—might lose the farm and make all the accumulated labor,

deprivations, economies and money investments of many years, a vain effort.

When you placed that mortgage on the farm did you assure your life for at least a corresponding amount, payable when the loan had to be repaid, or at death?

If you didn't you only added to the anxieties of your widow and family.

Afraid you couldn't pay the premium on the policy? Could your widow pay the interest and maintain the sinking fund on the mortgage?

Don't continue that Risk—cover the mortgage with a life insurance policy that will discharge it—and leave a balance, payable monthly, for current expenses.

See the Sun Life representative. It will entail no obligation on you.

Correct Diet Builds Body, Gives Energy

BY EDWINA NOLAN
Director of Home Service, General Electric Refrigeration Department

HOUSEWIVES are hearing a great deal these days about vitamins, proteins and carbohydrates; about mineral elements in food, about food preservation and about what goes on the family table.

The body requires fuel to carry on its various functions; it burns up the food and takes out what it needs. It uses certain foods as a source of energy, others as building material and others to regulate body processes.

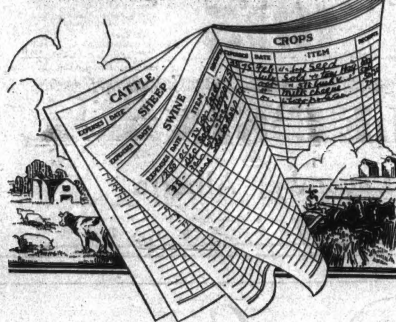

Energy is derived, we are told by biochemists, from fats—butter, cream, salad oils, sausage meat, bacon and other fatty meats; from carbohydrates, such as flour, cereals, rice, macaroni, potatoes and sugary foods; and from proteins, such as milk, meat, legumes, fish, eggs, nuts, cheese.

Building material comes from mineral elements, abundant in milk, eggs, fruits, green or leafy vegetables; from water in milk, and all common foods except fats, sugars and starches; and from proteins.

Foods to regulate body processes are found in mineral elements, water and vitamins, the latter being abundant in milk, eggs, leafy vegetables, raw fruits and vegetables.

Now, how may the housewife select from this list the proper combination of foods so that her menu will furnish everything the body needs? Dr. E. V. McCollum, noted biochemist and discoverer of important vitamins, says that if certain foods are first provided, then the rest of the menu may be planned to suit individual taste. First allow, he says, a quart of milk each day for each person; serve one cooked leafy vegetable each day; serve an uncooked fruit or raw vegetable twice a day. Protective foods of course, also are perishable and they must be kept properly refrigerated to be wholesome and to retain their best flavor and full amount of food value.

"What is my farm worth?"

What does my farm cost me?
What does my farm pay me?
How much do I owe?

Every farmer wants an answer to these questions, but without keeping suitable records he cannot know. Our Farmer's Account Book provides an easy method for keeping the records of your farm.

The New Canadian Junior College Buildings

Canadian Junior College is again a land-mass. Of late every day has seemed to have added to the size of the commodious buildings being erected on the old familiar site north of town. The walls of the main or administration building are now completed, and very soon those of its companion building, West Hall, will also be finished.

As one visits the College hill, he is struck by the massiveness of the new buildings. They are much larger than the buildings which they replace and are more substantially built. As reinforced concrete is being used for the walls, and asbestos roofing material for the roofs, they will present fire-proof exteriors. The administration building is 112 feet in length and 50 feet deep, with an additional 54 by 50 feet portion to the rear, making the building T-shaped. West Hall is 136 feet in length by 44 feet in width. Opposite the large front door and vestibule of the main building, will be the general assembly room, and on either side will be located offices and class rooms. The library will be an especially attractive room, occupying the entire east end. Large steel-ash windows are being used in both buildings, providing an abundance of lighting space.

To construct the concrete walls, ten car loads of cement and 1200 yards of gravel is necessary. This gravel would be sufficient to cover about two and a half miles of road. Eight freight cars are needed to bring the necessary 200,000 feet of lumber. Fifteen tons of reinforced steel are used to strengthen the concrete walls. If placed end to end these steel rods would stretch eight miles. There is exactly one mile of floor space in each floor of the administration building; that is, the flooring necessary for one floor would make a walk one foot wide and a mile long. In all, the lumber in the floors would construct a mile and a half of three-foot wide sidewalk. There will be 225,000 lath used and 14,000 yards of plaster. This is sufficient plaster to finish the walls of thirty five-roomed houses. Two tons of nails are required, and 2,500 pounds of glass-wool. The glass needed might be used in constructing the four-foot walls and roof of a large greenhouse, 12 by 150 feet.

Every effort is being made to have the buildings ready for the opening of the fall term, which begins October 15th. At that time some two hundred students will gather here from different parts of Western Canada to continue their schooling. In addition to the more advanced work Canadian Junior College carries on the work of the first eight grades in

a modern two-room building a short distance to the east of the other buildings. A student may thus receive his education from the first to the fourteenth grade in the College. Throughout the high school grades, the regular provincial schedule is followed with the addition of a Biblical study in each year. The following two-year college courses are offered: Literary, Ministerial, Scientific, or Preparatory Medical, and Commercial.

Believing that an education is not complete without the development of the physical and normal as well as the mental powers, the College board has made provision for the continuance of vocational training in the institution. Woodwork and auto mechanics will be provided for the continuance of vocational training in the institution. Woodwork and auto mechanics will be provided for the boys, and domestic science, including sewing and cooking, for the girls. A unique feature of the college plan is that practically all the work of the institution is done by the students, it being required that each student perform ten hours' work a week. Some students do much more than the required amount, and thus earn a portion of their school expenses.

Popular Clive Couple Married

Wedding Bells

A quiet but pretty wedding was solemnized on Tuesday, Aug. 26th, at the residence of E. R. Reynolds when his sister, Miss Annie May, who has been teaching the senior room in town for the past six years was united in marriage to William James Wagstaff, a prominent merchant of Trail B.C. Rev. I. N. Hughton, pastor conducted the ceremony.

The bride entered the drawing room on the arm of her brother, groomed in a lovely creation of Bird Blue lace over silk Georgette, and carried a bouquet of shell pink roses and fern. To the strains of the wedding march, played by Mrs. G. Vandervyl, Roy Reynolds and Mrs. Wm. Reed were the bridal witnesses, while Ardrey Reynolds, his only daughter made a very pretty flower girl.

Only the immediate relatives were present: Mr. and Mrs. J. T. Reynolds, Mr. and Mrs. Jack Reynolds and family; Mr. and Mrs. Bert Reynolds of Erskine; Mr. and Mrs. Wm. Reed, Mr. and Mrs. Milton Coote; Mr. and Mrs. G. Vandervyl; Mr. and Mrs. Sam Scott and Rev. and Mrs. I. N. Hughton; Mr. Geo. Reynolds her father; and nephews Geo. Reed, Clinton Wilbour and Robert Reynolds.

During the signing of the register, Mrs. Milton Coote sang "I Love You Truly," very acceptably. The many costly gifts testified to the popularity of the Bride. The happy couple will reside at Trail B.C. Hearty congratulations are extended to the bride and groom.

Here and There

(688)

A spectacular high-line trail ride about 1,000 feet above sea level from Banff to Lake Louise has just been inspected and found feasible by J. Murray Gibson and Jim Brewster. It is 27 miles west of Banff over timber line to a "ride" looking down on the little known glacier-fed Taylor Lake and following the 7,000-foot contour to the Connotation Lake trail leading to Moraine Lake. It commands magnificent views of the glacial country north of the Canadian Pacific Railway west as far as the Bow Lakes and south to Mt. Assiniboine. It is 60 miles long and will probably be used for the annual official camping trip of the Trail Riders of the Canadian Rockies next year.

"I do not believe that the talking films will ever take the place of the legitimate theatre. People still appear to be building ordinary theatres," said Lady Diana Manser, famous English society beauty and equally famous as the heroine of "The Miracle" during its New York and Boston productions, who arrived at the Windsor street station, Montreal, recently, on her first visit to Canada.

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which habitants artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Gaelic race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Travelling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Ninette, Man. before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently aboard the Empress of Scotland.

Every activity of the Canadian Pacific Railway was afire this year at the National Exhibition at Toronto, which was opened formally by E. W. Beatty, chairman and president of the road. An outstanding feature of the company's exhibit was the model of the new 42,500-ton Empress of Britain, greatest inter-empire passenger vessel, launched by the Prince of Wales last June and to be in service between Quebec and Great Britain next year.

More than \$100,000,000 will be spent in each of the next three years on power production now under development in Canada. Although there are other plans for important building projects, none will have a more intimate bearing on the industrial development of Canada than those now contemplated by the power industry.

Famous Husky Wins Prizes

Arthur Beauvais, well-known Indian guide at the Chateau Frontenac, Quebec City, owes much of his popularity among visitors to the hostelry to the team of huskies that maul them out on snowed trips in the winter. Chief among his team is its leader, "Jeff" and at the last minute it occurred to Arthur to enter Jeff at the Montreal Kennel Association Show held recently. He took no particular trouble in beautifying him for the occasion and accordingly was gratified to learn that he had taken three first prizes and one special prize. In fact, he would have taken another special prize as the best dog shown, if Beauvais had not taken him away to catch a train. Illustration shows close-up of Jeff with some of his prize ribbons.

Plow Early

FOR NEXT YEAR'S PROFITS

FIVE SIZES

CATERPILLAR TRACTOR

Don't let early snows or freeze-ups catch you with only a part of your fall plowing finished. Put CATERPILLAR outfitting into your fields—they will turn over the soil in record time for you. Their sure traction and abundant power enable them to work more acres per day with heavier machinery at a lower cost per day and do a better job. Plow early and plow enough—your next year's profits depend on it.

This Simplicity

John Deere Farm Tractor

Simplicity in the tractor you buy is mighty important to you.

This quality means easier operation, fewer adjustments to make, fewer repairs to buy, less trouble, and what's even more important, it means longer life.

In the illustration above, you see the remarkable simplicity of the powerful, light-weight John Deere Tractor. It shows you at a glance why the John Deere is known as the tractor of fewer, but sturdier, parts.

A strong, one-piece frame encloses the entire working mechanism.

When you're in town come in and look it over.

ism, protecting all parts from dust or sand, and supplies a reservoir for automatic lubrication so that all working parts operate in a constant bath of clean oil.

From engine to drawbar, the John Deere is a simple, but powerful giant, with no unnecessary parts to add weight and cause loss of power.

When you're ready to buy a tractor, don't overlook the fact that the John Deere is actually hundreds of parts simpler than other tractors of similar power rating.

CANADIAN PACIFIC STEAMSHIPS

A MOMENTOUS TIME

The fate of the Wheat Pool now rests entirely with the Pool members.

The Pool will triumph over all obstacles if the membership remains steadfast and unwavering by its leader.

The struggle is now at the hardest part, and the loyalty of every Pool member is of urgent importance. The result of the issue lies with the membership.

The safest place for your wheat is in the Wheat Pool, and it should be delivered to Pool elevators.

AN EASTERN OPINION OF WESTERN FARMERS

(Mail and Empire, Toronto)

"To suggest that the farmer of the west is going into wheat bootlegging by wholesale and thus break up the Pool he created, is to suggest that the western farmer is a woker and a cheat. The western farmer is not going to violate the sanctity of his contract, break his pledged word, destroy his bond—just because somebody with an axe to grind and not sufficient understanding to put an edge on it paints his 1930 crop future a picture more dark and troubled than the facts warrant."

DOUGLAS GIBSON DEAD

Douglas Gibson, fifteen-year-old son of Mr. and Mrs. R. M. Gibson, died at the Lacombe Hospital last night. Douglas had been in poor health for several months, and was taken to the hospital about two weeks ago, but his condition steadily became worse and despite every care passed peacefully away on Wednesday night. He had been suffering from rheumatic fever which later affected his heart.

Private service will be held at the home at 1:30 p.m. Sept. 6th, 1930. Funeral will be held from St. Andrew's United Church at 2:30 p.m., Saturday Sept. 6th.

The sympathy of the entire community goes out to Mr. and Mrs. Gibson in their bereavement.

COPEMAN ADMIRES GULL LAKE

It will be remembered that young Copeman was one of the canoeists who endeavored to go from Edmonton to the Gulf of Mexico by water, but who's craft met with disaster when about two thousand miles upon its way, or just about half way to the Gulf. It is fortunate that Gull Lake has won him over to their lake and he says: "I'll be there next season and will stay a while. I never saw a finer beach in all my travels than that of Gull Lake. I am astounded—nothing around Edmonton can compare with your lake and beach."

TORONTO'S FINE SKYLINE.

This unique close-up of Toronto's waterfront gives a vivid idea of the extraordinary growth of the city's downtown area since early in 1928. Centre of the picture is the Royal York Hotel, largest hotel in the British Empire; left is the Star office; and right the fine structure of the Bank of Commerce.

Specials from Shoe Dept.

Misses Chocolate Colored Oxfords Special \$2.45
Balmoral style, strong, serviceable shoe for hard wear. Sizes 11 to 2.

Misses' Black Calf Oxfords \$2.45

White stitching, flexible sole. An easy fitting shoe and so reasonably priced. Sizes 11 to 2.

Another Special Worth Considering

Girls high cut or high top shoe; all solid leather, Classic make, worth \$3.50 pair.
Special \$2.25 a pair

Girl's Hose 25c.

Black or light fawn, in a well made cotton hose. Sizes 8 1-2 to 10.

Children's Cotton Ribbed Hose 25c.

Misses Slippers \$3.95

Cuban and military heels, Patent leathers and colored calf.

Hats—New Felts \$4.50

Clever little beretts—chic new tams and turbans—smart cushion or double brimmed felts. New brim styles as well as a variety of close-fitting head moulding styles in Autumn's favored shades—Autumn Browns, Greens, Sands and Black.

Children's and Misses Oxfords at \$1.50
Shoes that will give lots of hard wear. Sizes to 2.

They call this Nightie 'KNOTICAL'

A luxurious nightie with a nautical swag in the neckline, and a fascinating knotted girdle that makes it unusually effective. It is only one of the new Woods nighties that we are showing. Won't you come in and see them? At the same time, look at the new Brevities that are creating such a stir.

"Of course, with the Woods Brevities you should wear the new Underwear. Won't you come and see them?"

HERE IS THE TORSEADOR PYJAMA

Here is a costume pyjama with a Spanish swag. It's the tuck-in type with wide flared legs. It has an insouciant air. Perhaps it's the languid applique of the Torseador smoking—perhaps it's because it is also loungeable.

We are showing this fascinating model, and many of the Woods new Brevities in our Underwear Department. Won't you come and see them?

"Of course, with the Woods Brevities you should wear the new Underwear. Won't you come and see them?"

New Fall Hats \$3.95 and \$6.25

Horton and Brock makes, new colors, styles and blocks. These hats are the best made in Canada and are manufactured by Wolthausen at Brockville, Ontario.

Meeting of Crown 399

The Council of the above district met in the Municipal Office, there being present Councilors Sawyer, Madden, Parker, Hand, Hall and Stewart.

The minutes of the previous meeting were read and it was moved by Sawyer that they be adopted as read. It was also moved by Sawyer that the minutes of the meeting of April 10th, which had been held over for further discussion, be adopted as read.

Sawyer—That part N.W. 35-38-26 4 be leased to F. W. Miller for the consideration of keeping the weeds eradicated and the fences in repair, lease to terminate at the pleasure of the Council.

Sawyer—That the Secretary be instructed to write the C.N.R. to the effect that as soon as the approaches to the crossing were complete he would mail them a check to cover this cost of crossing.

Sawyer—That the Municipal District purchase gravel for the Lake-side Road.

Sawyer—That a committee of Stewart, Hand, Parker and Madden be appointed to investigate the railroad crossing at Slatwood School and on the Chiswell road; also crossing over slough in Lincoln School District and road between T18-41-26-4.

Stewart—That the Secretary be instructed to cancel the taxes on S.E. 32-38-26-4 as follows: Municipal \$129.07; Supp. Rev. \$44.70; School \$108.45.

Madden—That this Council approve of the construction and location of the fences along the roadway crossing the N.E. 27-35-27-4.

Sawyer—That the Municipality build a road from the Village limits of Gull Lake to the Meridian, in accordance with the agreement between the Municipal Council of Crown No. 399 and the Department of Public Works; and that all costs in connection therewith be charged to Division 3.

Stewart—That the Reeve and Deputy Reeve be appointed to go to Edmonton and interview the Hon. O. L. McPherson, Minister of Public Works. Parker—That this Council approve of the application of L. H. Ebeling for a store on S.W. 22-40-28-4.

Madden—That Hand and Sawyer be appointed a committee to purchase two acres of land off the N.W. 33-38-26-4 for gravel purposes.

Madden—That the Secretary be instructed to write Van Allen that the road they propose is out of the question.

Parker—That the delegates' ex-

penses re interview with the Minister of Public Works, be borne by M.D. 399.

Sawyer—That the Councilors be paid the sum of one hundred dollars (\$100.00) each on the salary.

Facker—That the first quarter of the Secretary's salary be paid. Madden—That the following pay sheets be passed and ordered paid: A.3, \$352.00; A.4, \$522.77; A.5, \$105.00; B.1, \$124.00; B.2, \$148.25; C.2, \$503.45; C.3, \$378.15; D.1, \$286.22; E.3, \$569.25; E.4, \$128.75; E.5, \$213.10; E.6, \$264.50; F.4, \$106.70.

Hand—That the following accounts be passed and the Secretary instructed to pay the same:

WORKING WITH BLUNT TOOLS

Roger Babson's is a name to conjure with in North America. A statistician, a watcher of the pulse of business, seer, prophet, and counsellor for all who live by buying and selling, he is in his great field what Edison is in the domain of science, what Foster is in meteorology or weather wisdom. A

bulletin from his hand is regarded by business world as the sage counsel of a patriarch and in one of these Babson compares retrenchment in advertising to putting blunt or damaged tools into the hands of workmen. Sales resistance may become stronger, the output may possibly diminish but no manufacturer would dream of skimping the quality of his product. The machinery and the tools must be kept perfect and the craftsmen efficient. Yet the salesman, whether his place is on the road or behind the counter, is equipped with blunt tools if "the house" does not reinforce his effort with a vigorous advertising campaign. The very fact that sales resistance increases under certain conditions is all the more reason why it should be overcome by use of the advertising stimulant.

Babson prescribes two main factors for successful merchandising. Everyone knows there are more, but seemingly Babson considers these two so all-important that he does not take the others into his present considerations at all. They are first, a good product, and second, good advertising. The first goes without saying. To the second he alludes as a vitalizing force, a key factor in mass distribution and mass production, a potential stabilizer of employment, a creator of new industries and a foundation builder for future business growth.

Nor is his counsel ancient undiminished vigor in advertising directed only to the manufacturer and the distributor of nationally advertised lines. With emphasis he advises the retailer that now when he is in a position to enable the retail buyers to effect economies is the very time when he should hold out these inducements by vigorous advertising. And, he says, "the best way to tell them is through the local newspapers."

Economic conditions are the cause of retrenchment all along the line from the primary producer to the ultimate consumer. From the vendor's point of view this retrenchment naturally results in increased sales resistance. The enterprising sales executive will not be content merely to wait for this obstacle to melt, but will attack it with the edged weapon of advertising. Roger Babson is an experienced counsellor, and his advice is not founded on false premises.

Oxford Sheep For Sale

Three shearing rams, two are real choice rams. Six ram lambs, real nice lambs. A few aged purebred ewes; 60 grade ewes from one to four years old. Phone RTV1, C. R. Westfall, Carstairs, Alta.
